LENS TREATMENTS

Anti Reflective, Ultimate Scratch Coat, and Hard Case Package

- Improves vision in all lighting conditions especially in low lighting situations
- Reduces eye fatigue caused by computer glare
- Reduces dry-eye conditions
- Hydrophobic and Oil-phobic coating repels oil, dirt, grease, ice, snow, and rain
- Lenses require less frequent cleaning
- Adds five additional layers of scratch resistance to the lens making them harder to scratch
- Allows the lens to be harder without sacrificing flexibility and therefore increases impact resistance
- Makes the lens easier to clean properly

Anti-Reflective Coating

- Improves vision in all lighting conditions especially in low lighting situations
- Reduces eye fatigue caused by computer glare
- Reduces dry-eye conditions
- Hydrophobic and Oil-phobic coating repels oil, dirt, grease, ice, snow, and rain
- Lenses require less frequent cleaning

Premium Anti-Fog (not available with Tint or A/R)

- Premium Anti-Fog is NOT compatible with Tints, Anti-Reflective, or Ultimate Scratch coatings.
- Bonds to lens: it is impossible to "wash" or "wipe" off
- Multi-layer thermally cured process that insures sustained effectiveness
- Eliminates the "white wall" of vapor that can impede vision or require removal of eyewear

Ultimate Scratch Resistant Coating

- Adds five additional layers of scratch resistance to the lens making them harder to scratch
- Allows the lens to be harder without sacrificing flexibility and therefore increases impact resistance
- Makes the lens easier to clean properly
